

ThermoPro TP-359

Temperature and Humidity Monitor

With Swiss-made high-precision sensors, the ThermoPro TP359 will read and record the slightest changes in temperature and humidity. With the arrow trend indicators, you will be able to react ahead of time such as adjusting your thermostat or humidifier. TP359 is capable of a long 260ft Bluetooth range to send data directly to your phone. When the temperature and humidity goes out of your preset range, you will instantly receive a notification from the APP.

Specifications
